(54) Title: DELIVERY SYSTEM FOR A MEDICAMENT OR WELL-BEING ENHANCING COMPOSITION

(57) Abstract: A delivery system (1) for a medicament or well-being enhancing composition, comprising a flexible member (3), means (5) for attaching the flexible member (3) to fabric to form a pocket and an absorbent pad (7) for impregnation with the medicament or well-being enhancing composition arranged such that when the flexible member (3) is attached to a piece of fabric a pocket is formed shaped and sized such the pad may be received and held securely within the pocket but is removable therefrom. The fabric is typically part of a garment (25) or bed-linen.

**AMENDED CLAIMS**

[(received by the International Bureau on 03 February 2004 (03.02.04);  
original claims 1-12 replaced by new claims 1-22 (4 pages)]

1. A delivery system for a medicament or well-being enhancing  
5 composition, comprising a flexible member, means for attaching the  
flexible member to fabric to form a pocket and an absorbent pad for  
impregnation with the medicament or well-being enhancing composition  
arranged such that when the flexible member is attached to a piece of  
fabric a pocket is formed shaped and sized such the pad may be received  
10 and held securely within the pocket but is removable therefrom.
2. A delivery system according to claim 1, in which the flexible member  
includes an iron on adhesive on one surface, the flexible member being  
positioned by the user on a fabric and then ironed into place to secure it.  
15
3. A delivery system according to claim 1 or 2, in which the flexible  
member comprises a pocket.
4. A delivery system according to claim 1 or 2, in which the flexible  
20 member comprises a sheet of material which forms the pocket with the  
fabric when attached in place.
5. A delivery system according to claim 3 or 4, in which the pocket  
includes closure means.  
25
6. A delivery system according to any of the preceding claims, in which  
the pad is supplied impregnated with a medicament or well-being  
enhancing composition.

7. A delivery system according to any one of claims 1 to 6, in which the pad is supplied separately from a medicament or well-being enhancing composition for impregnation just before insertion into the pocket.
- 5 8. A medicament delivery system according to any one of the preceding claims, in which the medicament is a vapourised decongestant or an essential oil.
9. A medicament delivery system according to any one of claims 1 to 7,  
10 in which the medicament is a muscle relaxant.
10. A medicament delivery system according to any one of claims 1 to 7, in which the well-being enhancing composition comprises an insect repellent.
- 15 11. A medicament delivery system according to any of claims 1 to 7 in which the well-being enhancing composition comprises a fragrance or a perfume.
- 20 12. A medicament delivery system according to any one of the preceding claims in which the flexible member is decorative or carries advertising matter.
- 25 13. A medicament delivery system according to any one of the preceding claims in which the flexible member is a muslin, net or mesh material.
14. A medicament delivery system according to any preceding claim in which the means for attaching the flexible member to fabric comprises any of the following: stitching; a self-adhesive.
- 30

15. Fabric comprising a pocket characterised in that the pocket is arranged to receive an absorbent pad impregnated with medicament or well-being enhancing composition, the pocket being shaped and sized such that the pad may be received and held securely within the pocket but is  
5 removable therefrom.

16. Fabric according to claim 15 characterised in that the pocket includes a closure means.

10 17. A fabric according to claim 15 or 16 in which the medicament or well-being enhancing composition is any of the following: a vaporised decongestant or an essential oil; a muscle relaxant; an insect repellent; a fragrance or a perfume.

15 18. A garment comprising a pocket characterised in that the pocket is arranged to receive an absorbent pad impregnated with medicament or well-being enhancing composition, the pocket being shaped and sized such that the pad may be received and held securely within the pocket but is removable therefrom.

20

19. A garment according to claim 18 characterised in that the pocket includes a closure means.

20. A garment according to claim 18 or 19 in which the medicament or  
25 well-being enhancing composition is any of the following: a vaporised decongestant or an essential oil; a muscle relaxant; an insect repellent; a fragrance or a perfume.

21. A kit comprising an adsorbent pad impregnated with a medicament  
30 or a well-being enhancing composition and flexible member together with means for attaching the flexible member to a fabric to form a pocket such

that when the flexible member is attached to a fabric a pocket is formed shaped and sized such that the pad may be received and held securely within the pocket but is removable therefrom.

- 5 22. A kit according to claim 21 in which the medicament or well-being enhancing composition is any of the following: a vaporised decongestant or an essential oil; a muscle relaxant; an insect repellent; a fragrance or a perfume.
